

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

SCIENTIFIC BOOKS

THE CONTROL OF HUNGER IN HEALTH AND DISEASE

By ANTON JULIUS CARLSON, *Professor of Physiology at the University of Chicago.*

A summary of the work of the stomach, with special reference to hunger and appetite, carried on at the Hull Physiological Laboratory, at the University of Chicago during the last four years. 219 pages. Price \$2.00 net.

University of Chicago Press, Chicago, Ill.

STATE SANITATION

By GEORGE CHANDLER WHIPPLE, *Professor of Sanitary Engineering at Harvard University. Member of the Public Health Council, Massachusetts State Department of Health.*

The primary object of this book is to set forth the past work of the Massachusetts State Board of Health, so that it may be known by the people of the present generation. 377 pages.

The Harvard University Press, Cambridge, Mass.

PRINCIPLES OF OCEAN TRANSPORTATION

By EMORY R. JOHNSON, Ph.D., Sc.D., *Professor of Transportation and Commerce of the University of Pennsylvania,* and GROVER C. HUBNER, Ph.D., *Assistant Professor of Transportation and Commerce at the University of Pennsylvania.*

This book embodies all the principal changes that have recently occurred in methods of ocean transportation throughout the world. Illustrated with half-tones, maps and diagrams. 513 pages.

D. Appleton and Company, New York City

DESCRIPTIVE MINERALOGY

By WILLIAM SHIERLEY BAYLEY, *Professor of Geology at the University of Illinois*

A text-book for college classes, designed to give the student a comprehensive view of modern mineralogy, rather than a detailed knowledge of many minerals. 268 illustrations. 542 pages.

D. Appleton and Company, New York City

INORGANIC CHEMISTRY

By ALEXANDER SMITH, *Professor of Chemistry in Columbia University.*

A thorough treatise of inorganic chemistry for students beginning this study in college, university or professional schools. Third edition. 925 pages.

The Century Co., New York City

SOIL PHYSICS AND MANAGEMENT

By J. G. MOSIER, B.S., *Professor of Soil Physics, University of Illinois,* and A. F. GUSTAFSON, M.S., *Assistant Professor of Soil Physics, University of Illinois.*

The publication of this book fulfils three purposes: First, a text-book for agricultural students; second, a reference book for the practical farmer; and, third, an aid to the landowner who desires information in the management of his land. 202 illustrations. 442 pages.

J. B. Lippincott and Company, Philadelphia, Pa.

FIELD BOOK OF INSECTS

By FRANK E. LUTZ, *Associate Curator, Department of Invertebrate Zoology, American Museum of Natural History*

A popular treatise of the more common insects, with special reference to those of the Northeastern United States. 800 illustrations. 409 pages. Price, \$2.50 net.

J. P. Putnam's Sons, New York City

A TEXT-BOOK OF PRECIOUS STONES

By FRANK B. WADE, B.S., *Head of the Department of Chemistry, Shortridge High School, Indianapolis, Ind.*

This book presents, in as natural an order as possible, the fundamental principles and methods in use for identifying precious stones. 318 pages. Price, \$2.00 net.

J. P. Putnam's Sons, New York

COMPARATIVE ANATOMY OF VERTEBRATES

By J. S. KINGSLEY, *Professor of Zoology at the University of Illinois*

A text-book of comparative anatomy, laying special emphasis on the embryological side of the study. Second edition. 406 illustrations. 449 pages. Price, \$2.00 net.

P. Blakiston's Son and Company, Philadelphia, Pa.

TOPOGRAPHY AND STRATEGY IN THE WAR

By DOUGLAS WILSON JOHNSON, *Associate Professor of Physiology, Columbia University.*

This book treats the relationship between inanimate nature and the science of war and gives a picture of the different war fronts in order that the military campaigns of the war may be followed with greater ease. 211 pages. \$1.75 net.

Henry Holt & Co., New York

GENERAL ZOOLOGY

By A. S. PEARSE, *Associate Professor in the University of Wisconsin.*

This book has been written to be read by students of eighteen to twenty years of age. With this idea in view both the illustrations and text have been prepared more in the style of a natural history than of an anatomy. 366 pages.

Henry Holt & Co., New York

HISTORY OF MEDICINE

By FIELDING H. GARRISON, *Principal Assistant Librarian, Surgeon General's Office, Washington, D. C.*

This volume has been written with a definite intention of stimulating the student to do his own thinking and research, by interesting him in the subject from the start. 905 pages. Cloth \$6.50 net.

W. B. Saunders Co., Philadelphia, Pa.

A SHORT HISTORY OF SCIENCE

By W. T. SEDGWICK and H. W. TYLER of the *Massachusetts Institute of Technology.*

This volume seeks to furnish the student and the general reader with a concise account of the origin of our scientific knowledge and scientific methods. 474 pages. Price \$2.50 net.

The Macmillan Co., New York

EVERYMAN'S CHEMISTRY

By ELLWOOD HENDRICK, New York City.

This book aims to give to the average man a general realization of the tremendous importance of chemistry and its application in actual life. 373 pages.

Harper & Brothers, New York

SCIENCE PROGRESS

A QUARTERLY REVIEW OF SCIENTIFIC THOUGHT, WORK AND AFFAIRS

EDITED BY SIR RONALD ROSS, F.R.S., D.Sc., M.D., Etc.

SCIENCE PROGRESS owes its origin to an endeavor to found a scientific journal containing original papers and summaries of the present state of knowledge in all branches of science. The necessity for such a journal is to be found in the fact that, with the specialization which necessarily accompanies the modern development of scientific work and thought, it is increasingly difficult for even the professional man of science to keep in touch with the progress achieved and the trend of thought in subjects other than those in which his immediate interests lie. This difficulty is felt by teachers and students in schools and colleges, and by the general educated public interested in scientific questions. SCIENCE PROGRESS claims to have filled this want.

Published early in January, April, July, and October, by John Murray, 50a, Albemarle Street, London, W., England. Annual Subscription, \$4.80 (including postage). Single numbers \$1.20 (postage 10 cents).

The Philippine Journal of Science

ALVIN J. COX, M.A., Ph.D., General Editor

Published by the Bureau of Science
of the Government of the
Philippine Islands

A Periodical Devoted to the Scientific and Commercial
Interests of the Tropics

The Journal, now in its twelfth volume, is issued in four sections. Each section consists of six numbers a year, in separately paged and indexed, and is a complete publication in itself.

YEARLY SUBSCRIPTION RATES

Section A. Chemical and Geological Sciences and the Industries.....	\$2.00
Section B. Tropical Medicine.....	3.00
Section C. Botany	2.00
Section D. General Biology, Ethnology and Anthropology	2.00
The four sections to one subscriber.....	7.00

A complete list of the publications of the Philippine Bureau of Science and a sample copy of the Philippine Journal of Science will be sent upon request.

Subscriptions and orders for publications should be sent to

SCHOOL AND SOCIETY

A weekly journal covering the field of education in relation to the problems of American democracy

Edited by J. McKEEN CATTELL

SATURDAY, OCTOBER 19, 1918

Education and Society: J. E. Boodin.

Causes of the Present Shortage of Teachers: Isabel A. Ennis.

Educational Events:

Students in English Training Colleges; The War Emergency Ruling concerning School-house Construction; The School Garden Army and the State Councils of Defense; British Educational Mission to the United States.

Educational Notes and News.

Discussion and Correspondence:

The School Bulletin and the Community: Gertrude M. Tolbert. Service Badges for Teachers: Horace Gunthorp.

Quotations:

The Salaries of New York City Teachers.

The Proposed Washington-Lafayette Schools for France: Henry Fairfield Osborn.

Educational Research and Statistics:

The Use of Intelligence Tests in the Educational Guidance of High-school Pupils: Wm. M. Proctor.

Societies and Meetings:

The National Education Association.

SATURDAY, OCTOBER 26, 1918

The Policies of State Superintendents toward Students entering Agricultural Employment during the War: Thomas J. Smart.

Project Methods in Teacher-training Courses: W. S. Taylor.

Educational Events:

Schools for Mothers; The Fiftieth Anniversary of Cornell University; Program of the American Home Economics Association; Teachers and the Draft; The Salaries of New York City Teachers.

Educational Notes and News.

Discussion and Correspondence:

School Gardens: Robert T. Hance.

Quotations:

Militarism in Schools.

Educational Program of the American Federation of Labor.

Special Articles:

The Use of Intelligence Tests in the Educational Guidance of High-school Pupils: Wm. M. Proctor.

Societies and Meetings:

The National Education Association.

SATURDAY, NOVEMBER 2, 1918

University Physical Education and Efficiency: John Sundwall.

The Importance of Classics in Education from the Standpoint of Medicine: John L. Heffron.

Educational Events:

Public Lectures at the University of Pennsylvania; The Student Army Training Corps; Appropriations for the New York City Schools; Prospective Educational Legislation in Pennsylvania.

Educational Notes and News.

Discussion and Correspondence:

Essentials of Physical Education in Relation to Military Training in Public Schools: F. L. Kleeberger.

Quotations:

The Problem of the Schools.

Why Educators should enlist in the National Education Association.

Educational Research and Statistics:

The Mental and Physical Development of Rural Children: W. H. Pyle and P. E. Collings.

Societies and Meetings:

The National Education Association.

SATURDAY, NOVEMBER 9, 1918

Life Insurance and Annuities for Academic Teachers: J. McKeen Cattell.

University Physical Education and Efficiency: John Sundwall.

Educational Events:

Prizes of the American School Peace League; Teachers Unions; College Women on the Farms; The New York City Schools; School Board Service of the Bureau of Education.

Educational Notes and News.

Discussion and Correspondence:

Vocational and Humanistic: Professor H. C. Nutting.

Quotations:

Will the S. A. T. C. Reform the Colleges?

Bill Creating a National Department of Education.

Educational Research and Statistics:

An Experiment in "Focalization": Grace E. Bird.

Sargent's Handbook of American Private Schools

A Standard Annual of Reference

Of utmost importance to all interested in Secondary Education. Describes critically and discriminatingly the Private Schools, their merits and demerits, each under its appropriate classification.

Comparative Tables give the relative cost, size, age, special features, etc.

Introductory Chapters tell in a general way of interesting developments in the educational year,—“Educational Reconstruction in Other Warring Countries”, “Experimental and Modern Schools”, “Recent Development of the Country Day School”, Recent Educational Literature”, “The Year's Advance in Education”, “War Activities of the Schools”, “History of Military Education”, etc.

4th edition, 1918, revised and enlarged, 722 pages, \$2.50.

PORTER E. SARGENT
50 Congress St., Boston, Mass.

Archives of Psychology

- No. 27. A Statistical Study of Eminent Women. Cora Sutton Castle. Pp. 90. 80 cents; cloth, \$1.05.
- No. 28. The Mental Capacity of the American Negro. Marion J. Mayo. Pp. 70. 60 cents; cloth, 85 cents.
- No. 29. Experimental Studies in Judgment. H. L. Hollingworth. Pp. 119. \$1.25; cloth, \$1.50.
- No. 30. The Psychological Researches of James McKeen Cattell; A Review by Some of his Pupils. Pp. 101. \$1.00; cloth, \$1.25.
- No. 31. Fatigue and Its Effect upon Control. Isaac Emory Ash. Pp. 61. 60 cents; cloth, 85 cents.
- No. 32. The Transfer Effects of Practice in Cancellation Tests. Melvin Albert Martin. Pp. 68. 60 cents; cloth 85 cents.
- No. 33. The Intellectual Status of Children Who are Public Charges. J. L. Stenquist, E. L. Thorndike and M. R. Trabue. Pp. 52. 50 cents; cloth, 75 cents.
- No. 34. The Relation of Quickness of Learning to Retentiveness. Darwin Oliver Lyon. Pp. 58. 50 cents; cloth 75 cents.
- No. 35. The Overcoming of Distraction and Other Resistances. John J. B. Morgan. Pp. 78. 75 cents; cloth, \$1.

SCIENCE

A WEEKLY JOURNAL DEVOTED TO THE ADVANCEMENT OF SCIENCE

FRIDAY, NOVEMBER 8, 1918

The Influenza-Pneumonia Pandemic in the American Army Camps during September and October, 1918: Major George A. Soper.

British Science in Industry.

Doctor Aleš Hrdlička and the Vero Man: Dr. O. P. Hay.

Scientific Events:—

Recent Acquisitions for the Library and Map Collection of the Royal Geographical Society; Quicksilver Deposits in the Phoenix Mountains; The Selection of Presidents of the American Chemical Society; Medical Commission to Ecuador.

Scientific Notes and News.

University and Educational News.

Discussion and Correspondence:—

Shall Writers upon the Biological Sciences agree to ignore Systematic Papers published in the German Language since 1914: Dr. W. J. Holland. The Foundations of Mechanics: Professor W. S. Franklin and Barry MacNutt.

Scientific Books:—

Osborn on The Origin and Evolution of Life: Professor Ralph S. Lillie.

Special Articles:—

A Simple Device for illustrating Molecular Motion: Dr. E. R. Stockle. Abnormalities in the Chick Embryo: Mary T. Heaman.

FRIDAY, NOVEMBER 15, 1918

Education, Science and Leadership: Lord Sydenham.

Agricultural Text-books for our Public Schools: Dr. H. Ness-Fred Silver Putney.

von Adolf Erich Daecke: H.

Scientific Events:—

The United States Public Health Service and the Influenza Epidemic; Foreign Delegates to the American Clinical Congress; Divisional Officers of the American Chemical Society.

Scientific Notes and News.

University and Educational News.

Discussion and Correspondence:—

Insidious Scientific Control: Professor Edwin Bidwell Wilson. Nematodes on Marketable Fishes: Dr. H. P. K. Agersborg. Papers “to be published”: Dr. Horace Gunthorp.

Quotations:—

Masks in Gas Warfare.

Scientific Books:—

Conn's Agricultural Bacteriology: Professor E. G. Hastings.

Birth Statistics in the Registration Area of the United States.

Special Articles:—

The Hydrogen Ion Concentration necessary to inhibit the Growth of Four Wood Destroying Insects: Dr. Merle R. Meacham.

Published every Friday by

The Scientific Monthly

Entered as second-class matter October 1, 1915, at the post-office of Lancaster, Pennsylvania,
under the Act of March 3, 1879

CONTENTS OF THE OCTOBER NUMBER

Weather Controls over the Fighting during the Summer of 1918. Professor R. DeC. Ward.
Identification of Individuals by Means of Fingerprints, Palmprints and Soleprints. G. Tyler Mairs.
The Man of Science after the War. Professor D. Fraser Harris.
Factors in Achievement. Dr. P. G. Nutting.
Religion and Social Control. Professor Charles A. Ellwood.
The Method of Nature. Professor I. W. Howerth.
The Chemists of America. Dr. Benjamin Harrow.
The Jurassic Lagoons of Solnhofen. Professor Edward W. Berry.
The Progress of Science:
Raphael Pumpelly's Reminiscences; The Use of Asphyxiating Gas; The Students' Army Training Corps; Scientific Items.

CONTENTS OF THE NOVEMBER NUMBER

Social Conditions in the Piura-Tumbes Region of Northern Peru. Philip Ainsworth Means.
The Rationale of Testing Intelligence, with special reference to Testing in the Army. Captain Daniel W. La Rue.
This Generation can not escape paying the Cost of War. Professor C. C. Arbuthnot.
The Ethical Value of Science. Professor E. P. Lewis.
The Principles of Education. Dr. P. G. Nutting.
Minerals and Power. Professor F. E. Williams.
Medical Laboratories. Dr. Ellis Kellert.
The Progress of Science:
Grove Karl Gilbert; The University of Paris; The Chemical Warfare Service; Scientific Items.

Bausch^{and} Lomb Balopticon

THE PERFECT STEREOPTICON

Invaluable for instruction and lecture work—an ideal projection lantern for class room, laboratory or auditorium. Models for either lantern slides or opaque objects (photo prints, post cards, specimens, etc.) or both. Equipped with the new gas-filled mazda lamp, absolutely automatic. More complete models for microscopical and all known forms of optical projections.

Because of the demands made upon our resources for some of the government's most important military needs, we are unable to make Balopticon deliveries for the present. While proud to be of service in this world crisis, we shall expect to serve our other patrons even more efficiently than before, when the world is again at peace.

Bausch & Lomb Optical Co.

550 St. Paul Street Rochester, N. Y.

Leading American Makers of Microscopes, Projection Apparatus (Balopticons), Photographic and Ophthalmic Lenses, Binoculars, Range Finders, Gun Sights, Searchlight Reflectors and Other High-Grade Optical Products

W. Watson & Sons, Ltd.

BRITISH MADE

STUDENTS MICROSCOPES

The "Praxis" Stand is the Student's model par excellence. Made throughout with the same accuracy

and finish as on Watson's highest priced Stands.

A few special points are:—Standardization so that additional movements may be fitted as required. Lever fine adjustment. Constructed of two solid castings and indestructible. All parts are slotted and sprung to compensate for wear.

Price for Stand only \$18.90.
